CLASSIFICATION: Intermediate

AIA COURSE ID: AIACES7688

DESIGNATION: LU | HSW

COURSE DESCRIPTION:

As the face of workplace shifts to meet the changing demands of today's workforce, the influence of residential and hospitality design attributes are coming onto the scene like never before. We see the kitchen island inspiring new ways of creating more communal cafés, and the comforts of the living room making their way into the places people meet. Even the idea that someone could take a nap in the office to recharge gives a nod to the bedroom back home. In this CEU we will explore how home-ing from work is evolving the look and feel of the office, discuss what's driving this design trend, and share measurable results of how companies are using these spaces to attract and retain top talent, both now and in the generations to come.
