

Assembly Instruction

1 MODESTY PANEL INSTALLATION

Modesty panel comes unattached from the main assembly. It is located in it's own pack within the main assembly pack. Remove the mod panel and lay out on the floor with the pilot holes facing up.

2 Preinstall 5x of the included brackets onto the panel located at the pre-drilled pilot holes using the included hardware. The top face of the bracket should be aligned with the edge when installed. (FIGURE A)

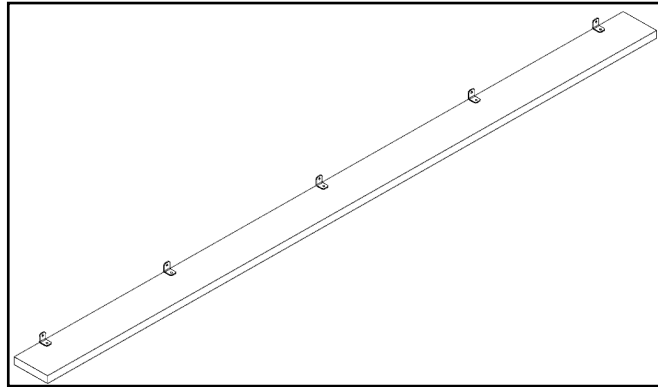

FIGURE A:

3 Position and install the modesty panel flush with the outside face of the shroud on the approach side of the desk. The modesty panel should be square with the work surface and the face of the modesty panel inset approximately 2mm from the edge. (FIGURE B)

Install the modesty using 5 screws into the underside of the worksurface. (FIGURE C)
