## National Office Furniture Introduces New Product Solutions

JASPER, Ind., July 15, 2019 - National Office Furniture, a unit of Kimball International, Inc., introduces a variety of new solutions and innovative enhancements that incorporate comfort, functionality, and smart design. National's newest launch further supports its formula to develop and introduce solutions that enable customers to be productive and stylish, without compromise.

### **Weli™ Seating Collection**

Introducing a new seating collection that focuses on supporting the people who heal, learn, discover, and aid everyday activities in healthcare settings. The [Weli](#) collection includes guest, rocker, lounge, patient chair, and easy access seating solutions, in addition to tables. This robust offering easily outfits an entire facility while accommodating diverse physical needs and social preferences.

### **Tessera® Casegoods Enhancements**

[Tessera](#) has been enhanced to include new adjustable height L-shaped solutions, counter and bar height tables, and intriguing new wall panels. Tessera wall panels create a vertical element that adds texture and design flexibility to meet an upscale aesthetic. Select from concrete, stone, textured composite, marker board, laminate, and veneer to add mixed material opportunities into spaces. Increase functionality by adding shelving, lighted shelving, overhead storage, sliding doors, and TV mounts. These enhancements offer tailored solutions for Respitality<sup>SM</sup> focused spaces, creating more approachable and relaxed environments.

### **Fringe® Lounge Enhancements**

The already comprehensive [Fringe](#) collection has been enhanced to offer a clean out option. This provides a horizontal space between the back and seat, creating an easy and simple cleaning solution for healthcare, education, or commercial environments. Fringe has also been enhanced to add additional contrasting fabric locations and single seat booth models to better accommodate café settings.

### **Swift™ Lounge Collection Enhancements**

New enhancements to [Swift](#) include a plinth base option and adding vertical tufting options. The plinth base makes maintaining clinical cleaning protocols easy by preventing food, dirt, and bacteria from getting beneath the lounge units. The plinth base and tufting options offer a distinct design aesthetic.

### **Grin® Seating Collection Enhancements**

Adding to the [Grin](#) lounge collection, new stool and guest seating solutions complete this robust offering. The lounge seating features a variety of base options incorporating mobile, static, sled, metal, and wood options. Stools are now available in counter and bar heights, and the new guest seating features metal sled frames or 4-leg wood frames.

### **Jiminy® Seating Enhancement**

[Jiminy](#) flip/nest seating offers exceptional comfort and extreme versatility. Its sleek profile incorporates a sturdy X-style frame that stands up to vigorous use in a multitude of environments. Expanding on Jiminy's versatility, its new upholstered back provides additional comfort to support an array of workplace needs. This simple, highly functional flip/nest chair offers clean lines and refreshing comfort.
