## WALL RAIL SOLUTION

Product Specifications	304
Production Options	306
Product Overview	308
Application Guidelines	309
Product Pages	310

## PRODUCT SPECIFICATIONS

### HORIZONTAL WALL RAIL AND FACEPLATE

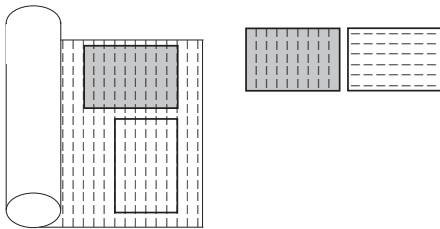

- Wall rail and faceplate are a powder coated aluminum extrusion
- Available in lengths of 72" and 144"
- Wall rails come in sets of 1 or 2 and include faceplate and alignment brackets
- Wall rails can also be ordered without faceplates
- When attaching worksurfaces to the wall rail without the use of tack board, marker board, or slat wall inserts, wall rail can be ordered without the faceplate
- Faceplate snaps onto wall rail to secure marker board, tack board and slat wall inserts in place; Inserts can be removed or replaced without removing wall rail
- Faceplate conceals alignment brackets, fasteners and provides a clean aesthetic look
- Wall rail is mounted horizontally providing tie in to appropriate load bearing studs
- Alignment bracket is required to align 2 adjacent sections of wall rail and is included with wall rails
- Alignment bracket is hidden from view once installation is complete
- Wall rails can be cut to size in the field
- WaveWorks and Epic worksurfaces can be attached to wall rails with worksurface brackets
- Worksurfaces that are attached to the wall rail can be ordered with or without a wire manager; Worksurfaces with a wire manager have a flexible PVC trough that allows cords and cables to be routed along the back edge or sides of worksurface

### MARKER BOARD INSERTS

- Marker board inserts have erasable writing surface and are available in HPL or magnetic porcelain models
- Marker board inserts are available in white only
- HPL marker board and tack board insert models can be scribed in field
- Marker board, tack board and slat wall inserts include 2 trim channels

### TACK BOARD INSERTS

- Tack board insert is available in fabric, see page 306 for fabric options
- Shaded rectangle portrays a railroaded tack board

### SLAT WALL INSERTS

- Slat wall inserts are powder coated aluminum
- Slat wall inserts offer flexibility in placement of work tools; Combo slat wall inserts offer a slat wall insert combined with a tack board insert providing a multi-functional area and is an economical alternative when overhead storage will be used

### ORGANIZER SHELF INSERTS

- Veneer organizer shelf inserts are plain sliced slipmatched cherry (Amber, Autumn, Mocha, Truffle) or maple veneer (Brighton, Caramel, Honey, Natural), plain sliced bookmatched walnut veneer (Clear Walnut, Cordovan, Judicial), quarter cut walnut veneer (Almond, Portobello, Sable), or quarter cut oak veneer (Sonoma).
- When specifying Clear Walnut, a clear coat finish, the natural wood characteristics of walnut veneer are visible. These characteristics include, but are not limited to, color and woodgrain variation
- Finish is a water-based, high performance wood finish that meets or exceeds indoor air quality standards. This proprietary finish is virtually VOC-free, has remarkable durability and allows the beauty of wood to show through
- Surfaces feature a semi-open pore matte finish

### EXHIBIT TV MOUNT INSERT

- Fabric insert is not tackable; see page 306 for fabric options
- Single TV Mount included with laminate, veneer, and fabric inserts
- Dual TV Mount available as an option on 60" inserts for additional upcharge

### TRIM CHANNELS

- Quantity of 2 is standard with each board/insert
- Available in powder coat paint or fabric
- Provides an expansion joint, vertical cable manager attachment and compensates for out-of-plumb walls
- Trim Channels can be ordered separately for boards/inserts that have been scribed in the field

### FULL END TRIM

- Full end trim is steel and powder coated
- Full end trim finishes the end of a run and connects the top and bottom wall rail

**SINGLE END CAP**

- Single end cap is steel and powder coated
- Single end cap finishes the end of a single wall rail by capping off the wall rail, perfect for when a wall rail is used without inserts and a faceplate

**VERTICAL CABLE MANAGER**

- Vertical cable manager attaches between the insert and trim channel
- Conceals and allows for power cords to be managed and routed from overhead to outlet

**VERTICAL CABLE MANAGER FOR TV MOUNT INSERT**

- Vertical Cable Manager attaches to the Exhibit TV Mount Insert
- Conceals and allows for power cords to be managed and routed from TV to outlet

**WORKSURFACE BRACKETS**

- Exhibit worksurface brackets attach worksurfaces to lower wall rail
- A worksurface bracket is required every 48" along back edge of worksurface
- Worksurface bracket is anodized aluminum

**PLANNING TIPS**

- Wall rails can be mounted at any height if not utilizing with WaveWorks or Epic vertical storage units
- Consider the worksurface load when planning support; For worksurfaces that will hold office equipment, such as printers and copiers, additional support other than standard worksurface brackets is recommended
- Undersurface storage and pedestals satisfy both storage and support needs
- Reconfiguring existing worksurfaces may require new supports or brackets
- When worksurfaces meet end-to-end, a support panel or undersurface storage is required for additional support of the front edge
- Perpendicular worksurfaces can use flat brackets and worksurface brackets to provide adequate support from 1 surface to the other at the worksurface joint
- Worksurface brackets and supports can be positioned anywhere along the worksurface without the limitations of pre-drilled or predetermined locations
- Knife rim adds 1½" per side to worksurface depth. Knife rim is not recommended on lower storage as it affects user's kneespace
- Consider where you specify a worksurface with Worksurface wire manager. When attached to Exhibit lower wall rail, do not use at the end of run for a cleaner aesthetic
- Tack boards may be field scribed to match Epic knife rim worksurface depth

**DIMENSION KEY**

  - G1007 Serotina
  - G1008 Timeless
  - G1009 White Nebbia
  - G1012 Phantom Ecru
- See page 21 for Gallery program details and upcharges

# EXHIBIT

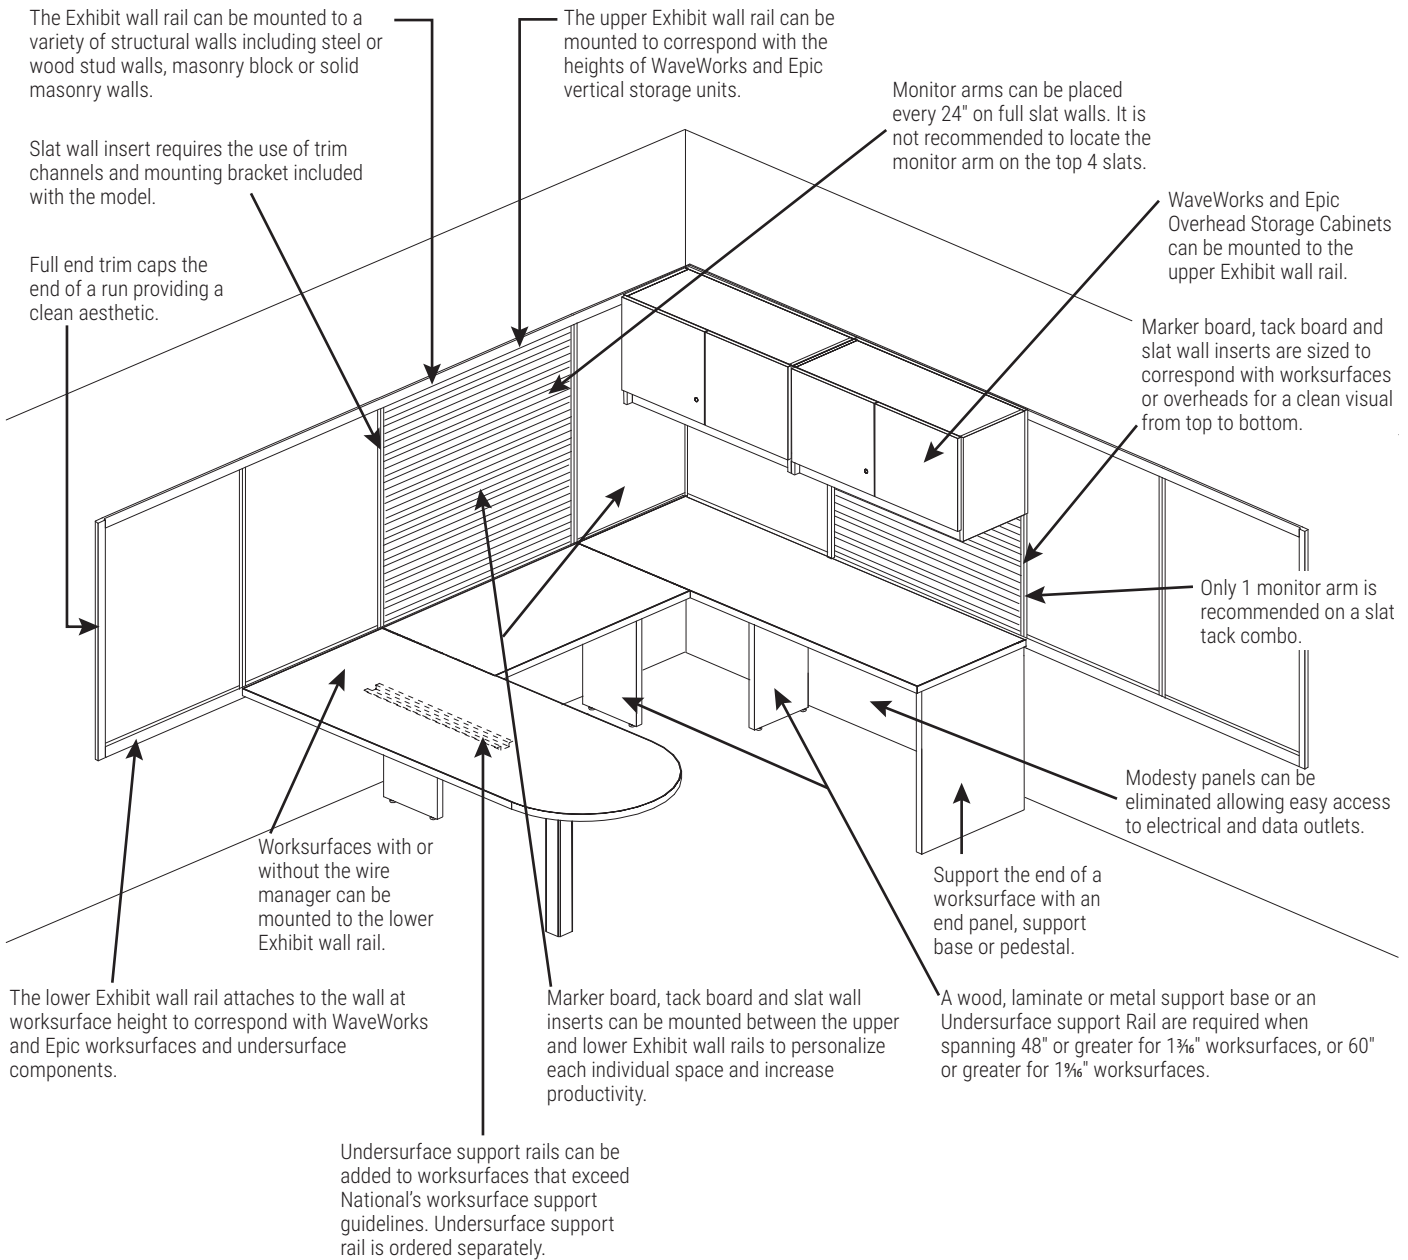

## OVERVIEW

Exhibit is a series consisting of a horizontal rail, marker board, tack board, and slat wall inserts, and work tools.

Exhibit can be used in numerous applications. Here are a few examples of how it can be used with National Office Furniture products.

## EXHIBIT WITH WAVEWORKS AND EPIC MODELS

The Exhibit rail is a horizontal rail that attaches to walls to accommodate WaveWorks and Epic workspaces and components. Attaching workspaces directly to the wall rail allows the reduction of modesty panels and opens the space for a clean aesthetic.

EXHIBIT

## APPLICATION GUIDELINES

### FASTENERS

- Fasteners must tie in directly to the substructure of a structural wall for proper attachment of Exhibit wall rail. National defines a structural wall as a load bearing wall constructed of materials such as poured concrete, concrete block, or studs

### MINIMUM REQUIREMENTS

- Wood studs must be nominal 2" x 4" minimum
- Metal studs must be "C" channel, 20 gauge minimum thickness
- Metal or wood studs must be on centers no greater than 24" and have a maximum height of 14' restrained at floor and ceiling
- Interior walls must be designed to resist not less than a force of 5 lbs. per sq. ft. applied perpendicular to the wall. The deflection of such walls under a load of 5 lbs. per square foot shall not exceed  $\frac{1}{200}$  of the span for walls with brittle finishes and  $\frac{1}{200}$  of the span for walls with flexible finishes (per International Building Code sections 1604.4 and 1607.13)
- Exhibit wall rail may not extend more than 6" beyond the last solid attachment point
- Minimum width of Exhibit wall rail that can be attached to a wall is 16" mounted to studs 16" apart
- If an overhead is being mounted, the minimum width for Exhibit is 30" with the Exhibit wall rail being centered on studs 24" apart, so as not to extend more than 6" beyond the last solid attachment point

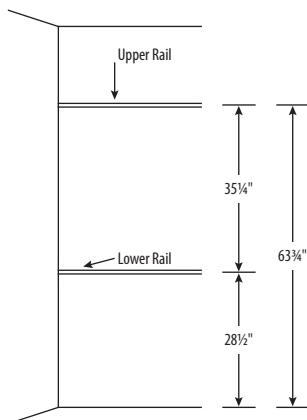

### RECOMMENDED FASTENERS

- Selection and purchase of the proper attachment fasteners for your wall conditions is the responsibility of the installer

Type and Size	Description
Steel Studs ( $\frac{1}{2}$ " to $\frac{3}{4}$ " drywall)	
Hilti® Toggler® anchor toggle bolts, $\frac{1}{4}$ "-20 x 2" grade 5 bolts	
Wood Studs ( $\frac{1}{4}$ " to $\frac{1}{2}$ " drywall)	
Meets or exceeds ANSI/ASME B18.6.4 and SAE J933.	
Pan head sheet metal screw	10-2 PHPMS
Solid Masonry	
Crown Bolt lag shields $\frac{1}{4}$ " x $1\frac{1}{2}$ "	
Buildex Tapcon concrete anchor screw $\frac{1}{4}$ " x $2\frac{3}{4}$ "	
Masonry Block	
Hilti Toggler anchor toggle bolts, $\frac{1}{4}$ "-20 x 2" grade 5 bolts	
Crown Bolt lag shields $\frac{1}{4}$ " x $1\frac{1}{2}$ "	
Buildex Tapcon concrete anchor screw $\frac{1}{4}$ " x $2\frac{3}{4}$ "	

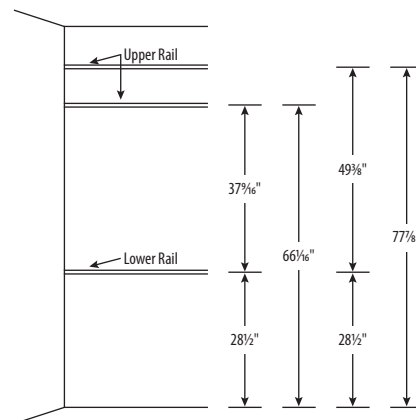

- Actual mounting height can be varied to meet specific needs; however, undersurface storage height must be considered
- Variations in the floor surface (peaks and valleys) should be considered, especially where horizontal placement is critical
- Exhibit wall rail extends  $\frac{1}{8}$ " from the wall. This dimensional loss should be considered when space planning for components, when Exhibit wall rails are being used on 2 or more walls of a space
- Select worksurfaces and inserts can be field scribed to fit space
- In fixed wall Exhibit applications, choose your insert height based on your specific application or height of corresponding WaveWorks vertical storage. Consider the height of the cabinet and clearance between the bottom of the overhead and the worksurface

### 34" Tall Inserts

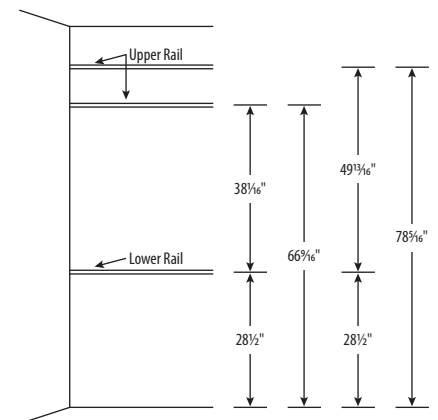

### 36" and 48" Tall Inserts

Compatible with WaveWorks and Epic 68" and WaveWorks 79" High WW Models

### 37" and 49" Tall Inserts

Compatible with WaveWorks 69" and 80" High WWN Models

- Conference and training rooms commonly use 49" tall inserts, but with Exhibit, you can use any of the 5 heights to achieve the customer's needs.

### WALL

- Trim when using full insert

# EXHIBIT

## PRODUCT SPECIFICATIONS

- Exhibit rail can be cut to size in the field
- Alignment brackets are required to align 2 sections of Exhibit rail in line
- Exhibit mount overheads available in the WaveWorks and Epic series, see Casegoods Book 2 Price List
- For worksurface brackets, end trim and end caps see pages 352-354

11N6034SH2WL Wood Shelves, Laminate Wall	2618	10½	59⅞	34¾	—	—	71 lbs.	3.9

- Some assembly required
- 34", 36" and 37" high shelf inserts have 3 shelves
- "SH2" shelves are a mirrored version of the "SH1" shelves
- The grain direction of all woodgrains will be horizontal (left to right) on the horizontal shelves
- Almond Horizontal (ADH), Portobello Horizontal (PBH), Portico Horizontal (PTH), Skyline Horizontal (SKH), Sonoma Horizontal (SMH), Designer White Linear Horizontal (491H), Cinder Linear Horizontal (492H) and Sable Horizontal (792H) laminates have horizontal grain on the wall insert and vertical shelves. All other woodgrains have vertical grain on the wall insert and vertical shelves
- Each horizontal shelf has a 50 lb. maximum limit

**PRODUCT SPECIFICATIONS**

- Each height of tack board, marker board, slat wall, and organizer shelf insert corresponds with a specific height of vertical storage in WaveWorks and Epic. See notation above models to see what model corresponds with appropriate height requirement
- Conference and training rooms commonly use 49" H inserts, but with Exhibit, you can use any of the 5 heights to achieve the customers needs
- As of April 20th, 2015, the inserts (Slat, Slat/Tack Combo, Insert Shelves, and TV Mount Inserts) will only be compatible with rails ordered on or after April 20th, 2015. If trying to use 1 of these inserts with an existing rail, please contact customer service for more information

**ORGANIZER SHELF INSERTS (CONTINUED)**

- Some assembly required
- "SH2" shelves are a mirrored version of the "SH1" shelves
- The grain direction of all woodgrains will be horizontal (left to right) on the horizontal shelves
- Almond Horizontal (ADH), Portobello Horizontal (PBH), Portico Horizontal (PTH), Skyline Horizontal (SKH), Sonoma Horizontal (SMH), Designer White Linear Horizontal (491H), Cinder Linear Horizontal (492H) and Sable Horizontal (792H) laminates have horizontal grain on the wall insert and vertical shelves. All other woodgrains have vertical grain on the wall insert and vertical shelves
- Each horizontal shelf has a 50 lb. maximum limit

# EXHIBIT

## PRODUCT SPECIFICATIONS

- Each height of tack board, marker board, slat wall, and organizer shelf insert corresponds with a specific height of vertical storage in WaveWorks and Epic. See notation above models to see what model corresponds with appropriate height requirement
- Conference and training rooms commonly use 49" H inserts, but with Exhibit, you can use any of the 5 heights to achieve the customers needs
- As of April 20th, 2015, the inserts (Slat, Slat/Tack Combo, Insert Shelves, and TV Mount Inserts) will only be compatible with rails ordered on or after April 20th, 2015. If trying to use 1 of these inserts with an existing rail, please contact customer service for more information

11N6037SH2WL Wood Shelves, Laminate Wall	2655	10½	59½	37	—	—	74 lbs.	4.3

- Some assembly required
- "SH2" shelves are a mirrored version of the "SH1" shelves
- The grain direction of all woodgrains will be horizontal (left to right) on the horizontal shelves
- Almond Horizontal (ADH), Portobello Horizontal (PBH), Portico Horizontal (PTH), Skyline Horizontal (SKH), Sonoma Horizontal (SMH), Designer White Linear Horizontal (491H), Cinder Linear Horizontal (492H) and Sable Horizontal (792H) laminates have horizontal grain on the wall insert and vertical shelves. All other woodgrains have vertical grain on the wall insert and vertical shelves
- Each horizontal shelf has a 50 lb. maximum limit

**PRODUCT SPECIFICATIONS**

- Each height of tack board, marker board, slat wall, and organizer shelf insert corresponds with a specific height of vertical storage in WaveWorks and Epic. See notation above models to see what model corresponds with appropriate height requirement
- Conference and training rooms commonly use 49" H inserts, but with Exhibit, you can use any of the 5 heights to achieve the customers needs
- As of April 20th, 2015, the inserts (Slat, Slat/Tack Combo, Insert Shelves, and TV Mount Inserts) will only be compatible with rails ordered on or after April 20th, 2015. If trying to use 1 of these inserts with an existing rail, please contact customer service for more information

## PRODUCT SPECIFICATIONS

- Each height of tack board, marker board, slat wall, and organizer shelf insert corresponds with a specific height of vertical storage in WaveWorks and Epic. See notation above models to see what model corresponds with appropriate height requirement
- Conference and training rooms commonly use 49" H inserts, but with Exhibit, you can use any of the 5 heights to achieve the customers needs
- As of April 20th, 2015, the inserts (Slat, Slat/Tack Combo, Insert Shelves, and TV Mount Inserts) will only be compatible with rails ordered on or after April 20th, 2015. If trying to use 1 of these inserts with an existing rail, please contact customer service for more information

11N6048SH7WL Wood Shelves, Laminate Wall	2727	10½	59½	48¾	—	—	100 lbs.	7.2

- Some assembly required
- "SH7" models have 2 shelves; the bottom shelf aligns with the bottom of a 30" overhead
- The grain direction of all woodgrains will be horizontal (left to right) on the horizontal shelves
- Almond Horizontal (ADH), Portobello Horizontal (PBH), Portico Horizontal (PTH), Skyline Horizontal (SKH), Sonoma Horizontal (SMH), Designer White Linear Horizontal (491H), Cinder Linear Horizontal (492H) and Sable Horizontal (792H) laminates have horizontal grain on the wall insert and vertical shelves. All other woodgrains have vertical grain on the wall insert and vertical shelves
- Each horizontal shelf has a 50 lb. maximum limit

**PRODUCT SPECIFICATIONS**

- Each height of tack board, marker board, slat wall, and organizer shelf insert corresponds with a specific height of vertical storage in WaveWorks and Epic. See notation above models to see what model corresponds with appropriate height requirement
- Conference and training rooms commonly use 49" H inserts, but with Exhibit, you can use any of the 5 heights to achieve the customers needs
- As of April 20th, 2015, the inserts (Slat, Slat/Tack Combo, Insert Shelves, and TV Mount Inserts) will only be compatible with rails ordered on or after April 20th, 2015. If trying to use 1 of these inserts with an existing rail, please contact customer service for more information

11N6049SH5WL Wood Shelves, Laminate Wall	2819	10½	59½	48½	—	—	116 lbs.	7.2

- Some assembly required
- "SH5" models have 3 shelves that align with the horizontal shelves of the "SH1" and "SH2" shelves
- The grain direction of all woodgrains will be horizontal (left to right) on the horizontal shelves
- Almond Horizontal (ADH), Portobello Horizontal (PBH), Portico Horizontal (PTH), Skyline Horizontal (SKH), Sonoma Horizontal (SMH), Designer White Linear Horizontal (491H), Cinder Linear Horizontal (492H) and Sable Horizontal (792H) laminates have horizontal grain on the wall insert and vertical shelves. All other woodgrains have vertical grain on the wall insert and vertical shelves
- Each horizontal shelf has a 50 lb. maximum limit

# EXHIBIT

## PRODUCT SPECIFICATIONS

- Each height of tack board, marker board, slat wall, and organizer shelf insert corresponds with a specific height of vertical storage in WaveWorks and Epic. See notation above models to see what model corresponds with appropriate height requirement
- Conference and training rooms commonly use 49" H inserts, but with Exhibit, you can use any of the 5 heights to achieve the customers needs
- As of April 20th, 2015, the inserts (Slat, Slat/Tack Combo, Insert Shelves, and TV Mount Inserts) will only be compatible with rails ordered on or after April 20th, 2015. If trying to use 1 of these inserts with an existing rail, please contact customer service for more information
