## CLEANING FABRICS:

### CLEANING CODE S

- Use only mild, pure water-free cleaning solvents.
- Cleaning by a professional furniture service is recommended.

### CLEANING CODE WS

- Use water-based cleaning agents or foam. Mild water-free solvents may also be used.
- Cleaning by a professional furniture service is recommended.

### CLEANING CODE W

- Use water-based cleaning agents or foam.
- Cleaning by a professional furniture service is recommended.

## FABRIC CHARACTERISTICS

Different fabrics/constructions will respond better than others to specific seating applications. Certain fabrics/constructions are more prone to relaxing over time and can demonstrate characteristics such as wrinkling, pilling, fuzzing, and puddling. Some upholsteries may experience dye transfer (clothing dyes transfer to the seating fabric). This does not mean that the fabric or application is deficient, but rather it is an inherent characteristic of that fabric or application and is considered normal behavior.

## LEATHER CHARACTERISTICS

Leather is a natural product. Healed scars, scratches, cuts, and stretch marks are natural markings and are characteristics of leather. Leather may experience dye transfer (clothing dyes transfer to the leather). This does not mean that the leather or application is deficient, but rather it is an inherent characteristic of that leather or application and is considered normal behavior.

## CLEANING LEATHER:

### REGULAR CLEANING

- Remove as much soil or staining as possible by carefully vacuuming or brushing.
- Dust with a dry or damp cloth.

### DEEP CLEANING

- Use mild non-detergent soap or cleaner. Wipe surface with a light circular motion. Repeat with clean water.
- Do not soak leather.
- Pat dry.
- Reference leather card for more information.
